Groups & events MICE segment

We at Sunflower Tours can arrange any kind of incentives or group events for all our target markets. We take great pride in making the group stay in UAE an experience to remember. Whatever your or your clients' requirements are, let us offer our assistance to create that perfect event or group holiday. We will tailor-make a program suitable for your clients, in regards to the purpose of the trip or specific requests. We take care of the whole group booking procedure, from accommodation request to confirmations, amendments and programs. On all our markets we handle both leisure and incentive groups, corporate conference groups, and also offer special company deals for tours and safaris. We also arrange golf tee times, special events, desert weddings, dinners and other requirements.

Groups vs. FIT bookings

In most other big cities and destinations, group rates for larger bookings get discounted rates from the hotels for blocking a certain amount of more rooms. This is not the case in Dubai and Abu Dhabi. Group rates in UAE are always on request, and contracted rates are in most cases not applicable. The group rates offered from the hotels will instead be higher than FIT rates, as hotel is not willing to block many rooms to lower prices because of the demand over the season. This is common policy in all of Dubai for group requests at the hotels.
